Information Collection Activity: collected vaccine availability info by calling healthcare providers through U.S.; published to public.

We operated the public/private clearinghouse for vaccine availability information, crucial to operation of largest publishers in world (representative example: Google) and in partial collaboration with state, local, and federal vaccination initiatives. We made tens of thousands of phone calls to healthcare providers to verify vaccine availability. We believe millions of vaccine seekers relied upon information which we discovered, curated, and published (including through partners).

4b (Code:) (Expenses \$ **52,489.** including grants of \$) (Revenue \$)

Research Support activity -- Providing web design, conversion optimization, advertising management, and bearing advertising expense to recruit patients for university-conducted studies aimed at quickly bringing treatments for covid-19 to the public.

We supported the Washington University in St. Louis Stop Covid trials which investigated fluvoxamine, a common anti-depressant, as a treatment for the covid-19 disease. We offered our expertise to the investigators free of charge and, with their assent and collaboration, improved their onboarding flow for new patients and advertised to recruit new patients on their behalf.
